to act as a stand-in for the chimera, the boss of Nyolpa Mountain, who has gone missing.

We have received orders from the Demon Lord

And in order to get there—

Seempossible!

I'll let you ride on my back, yeah, nyan nyan ufufu, I'll take you to heave—

Goblin has run away.

Let's get married!

Mimit.

A demon-type monster.

She's a colleague in the Demon Lord army.

She seems particularly attached to me.

Fairy types, such as goblins, are weak types and very low level.

Demons like Mimit have powerful magic, and are high level.

There are many different types of them, and each type has a different level of strength.

Monsters...

Well, then it was pointless.

Sorry.

Damn!

I changed my idea to seduce you, Serpal.

She is very sensitive about that...

But Mimit is extremely weak.

I don't really get why she's taken to me so much.

Or why she could get "Serpal".

I'm trying so hard to get you to notice me, Serpal.

Like before we left...

Sigh...

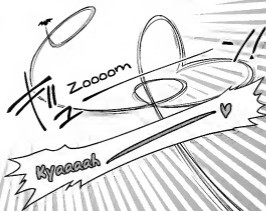

Look here!

Well, then, before we leave...

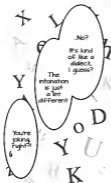

In a way, we're complete opposites.

Me, a strong low level type, and her, a weak high level type.

Ah, orders have come from the Demon Lord's castle!

It says the two of us are to act as a chimera until they can send a new chimera. We'll be 2-3 days...

Right, Hien.

Act?

Thanks...
Senpai!!

Just wanted to be like a demon.

—and various rumours were spread about the chimera.

Of course you are

No way!
I'm scored!

Can't you fight on the ground?

The two of them fought for three days—

Breasts?

Seems to be having fun!

I hear that when you beat it, the tail stands up.

It flies?
